During the Mid-term Test

- ❖ Answer **ALL** questions clearly through Moodle Centralized Group. Marks will be deducted for unclear/untidy work.
 - ❖ Do **NOT** discuss with each other.
 - ❖ Do **NOT** cheat in any means.
-

Sample Test Question

Note:

- The following sample question is **for format illustration and reference ONLY!**
- The contents of the sample question below **DO NOT imply any specific focus of study for the test.**

Question 1

Maverick is a pet enthusiast, he has adopted one Siberian Husky, one Golden Retriever, one Scottish Fold, and two Budgerigars. However, Maverick will visit his parents in Mainland China two weeks later and may stay there more than two months, he has no idea who can take care of his pets.

- (a) As one of his best friends, you try to help him by using a search tool to search for the related services. Demonstrate the typical search process to find the related services in your neighbourhood (provide the related URLs and screen capture when appropriated).

(10 marks)
